Class C and B Series
DATA SHEET

RTB6845 | Class B Cabinet

Class C and B Series Cabinets are manufactured to the stringent standards required by the Security Construction and Equipment Committee (SCEC).

These cabinets provide high-level security for data and communications equipment used in secure network environments.

Features

› Cabinets are supplied with a unique serial number that is displayed on the label and key

› Frames are manufactured from corrosion resistant 2mm zinc annealed steel that are fully welded with load ratings up to 800kg

› Doors are vented front and rear and manufactured from 1.5mm corrosion resistant zinc annealed steel

› Doors include 6mm anti-drill plate, three-point locking mechanism and lift-off hinges that swing to 140°

› Doors are also available in solid or window styles upon request

› Bottom panel and side panels are internally secured to provide a sturdy and stable platform

› RU positions are numbered front and back enabling quick installation

› Available in grey nurse as standard, black and other colours are optional

Standard Inclusions

› Front and rear mounting rails

› Left and right solid side panels are internally secured

› Vented front and rear doors with Class B lock

› 2 x PDU trays mounted at rear

› 1 x 100mm wide cable tray

› Levelling feet

› 1 x Baffle Box – fitted top rear (cable entry)
