Class C and B Series
DATA SHEET

RTB8845 | Class B Cabinet

Class C and B Series Cabinets are manufactured to the stringent standards required by the Security Construction and Equipment Committee (SCEC).

These cabinets provide high-level security for data and communications equipment used in secure network environments.

Features

- Cabinets are supplied with a unique serial number that is displayed on the label and key
- Frames are manufactured from corrosion resistant 2mm zinc annealed steel that are fully welded with load ratings up to 800kg
- Doors are vented front and rear and manufactured from 1.5mm corrosion resistant zinc annealed steel
- Doors include 6mm anti-drill plate, three-point locking mechanism and lift-off hinges that swing to 140°
- Doors are also available in solid or window styles upon request
- Bottom panel and side panels are internally secured to provide a sturdy and stable platform
- RU positions are numbered front and back enabling quick installation
- Available in grey nurse as standard, black and other colours are optional

Standard Inclusions

- Front and rear mounting rails
- Left and right solid side panels are internally secured
- Vented front and rear doors with Class B lock
- 2 x PDU trays mounted at rear
- 1 x 100mm wide cable tray
- Levelling feet
- 2 x Baffle Pipes (S) – top LHS and RHS (cable entry)
