Part Number: 9182

## WR Series – NSW DET Range

The WR Series wall mounted cabinets are built to the highest standards with flexibility and ease of installation at the forefront of the design criteria.

The welded frame provides a stable structure while the key lockable quick release door provides security and opens to 180° degrees.

Removable side panels with locks and cable knockouts in the top and bottom panels enables easy access during wiring and fitout.

Single section wall cabinets are supplied complete with removable rear panel. Installation is simple with a quick mount rail that is fixed to the wall, enabling one person to install the cabinet.

Double section wall cabinets come with a rear section with reversible lift off hinges, enabling one person to install the cabinet, flexibility and easy access.

## Features

- › Welded body
- › Removable sides with locks
- › Adjustable shelf rails with RU markings
- › Quick release door hinges facilitate easy installation
- › Curved vented door with 70% perforation
